Commitment to the Environment

Total Environmental Technology Ltd is committed to protecting and enhancing the environment, and to updating its practices in the light of advances in technology and new understanding in health and environmental science.

Prevention of pollution and enhancement of the environment are the fundamental promises of the Company's business. We believe that all corporations have a responsibility to conduct their business as responsible stewards of the environment and to seek profits only through activities that leave the earth healthy and safe. We believe that the Company has a responsibility not to compromise the ability of future generations to sustain their needs.

Environmental Policy Principles

- Strive for continual improvement in environmental management standards and performance.
- Ensure that Environmental Management is an integral function of the Company.
- Commit to the prevention of Pollution.
- Promote joint consultation and co-operation with employees, the Environment Agency, Environmental Health Officers and any other relevant and interacted organisation/persons.
- Provide appropriate information, instruction and training for all employees in environmental management and awareness.
- Ensure that this policy statement is made available to all employees and any other interested parties.
