Quality Statement

It is our policy to provide a quality service, both to meet the standards or requirements of our clients and to conform with those of current legislation.

Client satisfaction is a first concern for everyone, at every level in our Company, and only by provision of the highest levels of service do we hope to promote and preserve a good and long standing relationship with any client.

Wherever and however our business might interface with yours, and at whatever level, the quality of our service to you will remain under continuous review.

Our operatives are expected to manage change and to respond cooperatively to changing client needs.

Total Environmental Technology Ltd is a Company that complies with all legislation relating to the waste management industry. In all our operations we will conform to those standards enjoined by the Health and Safety at Work Act (1974).
